RUSTENBURG LOCAL MUNICIPALITY

APPROVAL OF CONSOLIDATED ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2008

As Accounting Officer, in terms of section 126(1) (a) of the Municipal Finance Management Act, Act no 56 of 2003, I am responsible for the preparation of the Consolidated Annual Financial Statements as set out on pages 1 to 66 and which I have signed on behalf of the Rustenburg Local Municipality.

I certify, in terms of section 124(1) of the Municipal Finance Management Act, that the salaries, allowances and benefits of Councillors as disclosed in the notes to these Consolidated Annual Financial Statements are within the upper limits of the framework envisaged in section 210 of the Constitution, read with the Remuneration of Public Office Bearers Act (Act 20 of 1998) and the Minister of Provincial and Local Government's determination in accordance with Act 20 of 1998.

Mr. A.J.F. Boshoff

ACCOUNTING POLICIES TO THE CONSOLIDATED ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2008**

1. BASIS OF PRESENTATION

The Consolidated Annual Financial Statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practices (GRAP) and the Standards of Generally Accepted Municipal Accounting Practices (GAMAP).

The Standards are summarised as follows:

GRAP 1	Presentation of Financial Statements
GRAP 2	Cash Flow Statements
GRAP 3	Accounting Policies, Changing in Accounting Estimates and Errors
GAMAP 4	Effects of Changes in Foreign Exchange Rates
GAMAP 6	Consolidated Financial Statements and Accounting for Controlled Entities
GAMAP 7	Accounting for Investments in Associates
GAMAP 8	Financial Reporting of Interests in Joint Ventures
GAMAP 9	Revenue
GAMAP 12	Inventories
GAMAP 17	Property, Plant and Equipment
GAMAP 19	Provisions, Contingent Liabilities and Contingent Assets
GAMAP 6, 7 & 8 have been complied with to the extent that the requirements in these standards relate to the municipality's separate financial statements.	

The Municipality may have transactions, events or balances that are outside the ambit of GAMAP and GRAP but which are included in Standards of International Public Sector Accounting Standards (IPSAS) issued by the International Federation of Accountants – Public Sector Committee, International Accounting Standards (IAS) issued by the International Accounting Standards Board or Generally Accepted Accounting Practice issued by the South African Accounting Practices Board and the South African Institute of Chartered Accountants. The Municipality has not complied with the measurement, recognition and disclosure requirements of those accounting standards.

The Minister of Finance has, in terms of General Notice 552 of 2007 exempted compliance with certain of the Standards listed above. Details of the exemptions offered and applied for have been listed together with an indication of the process that the municipality will follow regarding plans to implement the exemptions in the notes to the Annual Financial Statements.

Assets, liabilities, revenues and expenses have not been offset except when offsetting is required or permitted by a Standard of GAMAP or GRAP.

The principal accounting policies adopted in the preparation of these Consolidated Annual Financial Statements are set out below:

**RUSTENBURG LOCAL MUNICIPALITY
ACCOUNTING POLICIES TO THE CONSOLIDATED ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2008 (Continued)**

2. PRESENTATION CURRENCY

These Consolidated Annual Financial Statements are presented in South African Rand.

3. GOING CONCERN ASSUMPTION

These Consolidated Annual Financial Statements have been prepared on a going concern basis.

4. HOUSING DEVELOPMENT FUND

The Housing Development Fund was established in terms of the Housing Act, (Act No. 107 of 1997). Loans from national and provincial government used to finance housing selling schemes undertaken by the Municipality were extinguished on 1 April 1998 and transferred to a Housing Development Fund. Housing selling schemes both complete and in progress as at 1 April 1998, were also transferred to the Housing Development Fund. In terms of the Housing Act, all proceeds from housing developments, which include rental income and sales of houses, must be paid into the Housing Development Fund. Monies standing to the credit of the Housing Development Fund can be used only to finance housing developments within the municipal area subject to the approval of the Provincial MEC responsible for housing.

5. RESERVES

5.1 Capital Replacement Reserve (CRR)

In order to finance the provision of infrastructure and other items of property, plant and equipment from internal sources, amounts are transferred from the accumulated surplus to the CRR. The following provisions are set for the creation, feasibility and utilization of the CRR:

- ≈ The cash funds which back up the CRR are invested until utilized. The cash may only be invested in accordance with the investment policy of the Municipality.
- ≈ The CRR can only be utilised to finance items of property, plant and equipment and may not be used for the maintenance of these items.
- ≈ Whenever an asset is purchased out of the CRR, an amount equal to the cost price of the asset is transferred from the CRR and the accumulated surplus is credited by a corresponding amount. The CRR is reduced and the accumulated surplus is credited by a corresponding amount when the amounts in the CRR are utilised.
- ≈ Profit on the sale of land during a financial year is reflected in the Statement of Financial Performance. Profit on the sale of land more than budgeted is transferred annually via the Statement of Changes in Net Assets to the CRR, provided that it cash backed.

The amount transferred to the CRR is based on the municipality's need to finance future capital projects included in the Integrated Development Plan.

5.2 Capitalisation Reserve

On the implementation of GAMAP/GRAP, the balance on certain funds, created in terms of the various Provincial Ordinances applicable at the time, that had historically been utilised for the acquisition of items of property, plant and equipment have been transferred to a Capitalisation Reserve instead of the accumulated surplus in terms of a directive (budget circular) issued by National Treasury.

ACCOUNTING POLICIES TO THE CONSOLIDATED ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2008 (continued)**

Capitalisation Reserve (Continued)

The purpose of this Reserve is to promote consumer equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of these items of property, plant and equipment are offset by transfers from this reserve to the accumulated surplus.

The balance on the Capitalisation Reserve equals the carrying value of the items of property, plant and equipment financed from the former legislated funds. When items of property, plant and equipment are depreciated, a transfer is made from the Capitalisation Reserve to the accumulated surplus.

When an item of property, plant and equipment is disposed, the balance in the Capitalisation Reserve relating to such item is transferred to the accumulated surplus.

5.3 Government Grant Reserve

When items of property, plant and equipment are financed from government grants, a transfer is made from the accumulated surplus to the Government Grants Reserve equal to the Government Grant recorded as revenue in the Statement of Financial Performance in accordance with a directive (budget circular) issued by National Treasury. When such items of property, plant and equipment are depreciated, a transfer is made from the Government Grant Reserve to the accumulated surplus.

The purpose of this policy is to promote community equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of government grant funded items of property, plant and equipment are offset by transfers from this reserve to the accumulated surplus.

When an item of property, plant and equipment financed from government grants is disposed, the balance in the Government Grant Reserve relating to such item is transferred to the accumulated surplus via the Statement of Changes in Net Assets.

5.4 Public Contributions Reserve

When items of property, plant and equipment are financed from donations or public contributions, a transfer is made from the accumulated surplus to the Public Contributions Reserve equal to the donations or public contributions recorded as revenue in the Statement of Financial Performance in accordance with a directive (budget circular) issued by National Treasury. When such items of property, plant and equipment are depreciated, a transfer is made from the Public Contributions Reserve to the accumulated surplus.

The purpose of this policy is to promote community equity and facilitate budgetary control by ensuring that sufficient funds are set aside to offset the future depreciation charges that will be incurred over the estimated useful life of the item of property, plant and equipment financed from donations and public contributions.

When an item of property, plant and equipment financed from donations and public contributions is disposed, the balance in the Public Contributions Reserve relating to such item is transferred to the accumulated surplus.

5.5 Self-Insurance Reserve

The Municipality has a Self-Insurance Reserve to set aside amounts to offset potential losses or claims that cannot be insured externally and/or cover the cost of excess payments when claims arise on assets insured externally.

The balance of the Self-Insurance Reserve is annually determined and adjusted after the compilation of the Annual Financial Statements to at least 2, 5% of the carrying value of property, plant and equipment on 30 June, subject to the past claims history and the insurance risk carried by the Municipality. The Self-Insurance Reserve is maintained by a transfer to the accumulated surplus. Short-term investments are earmarked and set aside to ensure that the reserve is cash backed.

Claims and/or excess payments are settled by transferring a corresponding amount from the self-insurance reserve to the accumulated surplus.

Interest earned on the balance of the Self-Insurance Reserve is recorded as interest earned in the Statement of Financial Performance and is transferred to the Self-Insurance Reserve via the Statement of Changes in Net Assets as a contribution.

6. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are stated at cost less accumulated depreciation. Heritage assets, which are culturally significant resources and which are shown at cost, are not depreciated owing to the uncertainty regarding their estimated useful lives. Similarly, land is not depreciated as it is deemed to have an indefinite life.

Where items of property, plant and equipment have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified except where the impairment reverses a previous revaluation.

The cost of an item of property, plant and equipment acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets was measured at its fair value. If the acquired item could not be measured at its fair value, its cost was measured at the carrying amount of the asset given up.

Subsequent expenditure is capitalised when the recognition and measurement criteria of an asset are met.

FOR THE YEAR ENDED 30 JUNE 2008 (continued)**

PROPERTY, PLANT AND EQUIPMENT (Continued)

Depreciation is calculated on cost, using the straight-line method over the estimated useful lives of the assets. The annual depreciation rates are based on the following estimated asset lives:-

	<u>Years</u>	<i>Other</i>	<u>Years</u>
Infrastructure			
Roads and Paving	30	Buildings	30
Pedestrian Malls	30	Specialist vehicles	10
Electricity	20-30	Other vehicles	5
Water	15-20	Office equipment	3-7
Sewerage	15-20	Furniture and fittings	7-10
Housing	30	Watercraft	15
		Bins and containers	5
Community		Specialised plant and equipment	10-15
Buildings 30		Other items of plant and equipment	2-5
Recreational Facilities	20-30	Landfill sites	15
Security	5		

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount, it is written down immediately to its recoverable amount and an impairment loss is charged to the Statement of Financial Performance.

7. REVALUATION OF LAND AND BUILDINGS

Land and buildings are stated at historical cost and no revaluation is done.

8. INVESTMENTS

8.1 Financial Instruments

Financial instruments, which include listed government bonds, unlisted municipal bonds, fixed deposits and short-term deposits invested in registered commercial banks, are stated at cost.

Where investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified.

On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Financial Performance.

8.2 Investment in Municipal Entities

Investments in municipal entities under the ownership control of the Municipality are carried at cost. Separate Consolidated Annual Financial Statements are prepared to account for the Municipality's share of net assets and post-acquisition results of these investments, whilst eliminating transactions between the municipality and the entity.

ACCOUNTING POLICIES TO THE CONSOLIDATED ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2008 (continued)**

9. INVENTORIES

Consumable stores, raw materials, work-in-progress and finished goods are valued at the lower of cost and net realisable value. In general, the basis of determining cost is the first-in, first-out method.

Unsold properties are valued at the lower of cost and net realisable value on a weighted average cost basis. Direct costs are accumulated for each separately identifiable development. Costs also include a proportion of overhead costs.

Redundant and slow-moving inventories are identified and written down from cost to net realisable value with regard to their estimated economic or realisable values.

10. ACCOUNTS RECEIVABLE

Accounts receivable are carried at anticipated realisable value. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year-end. Bad debts are written off during the year in which they are identified. Amounts that are receivable within 12 months from the reporting date are classified as current.

11. TRADE CREDITORS

Trade creditors are stated at their nominal value.

12. REVENUE RECOGNITION

12.1 Revenue from Exchange Transactions

Service charges relating to electricity and water are based on consumption. Meters are read on a monthly basis and are recognised as revenue when invoiced. Provisional estimates of consumption are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. Revenue from the sale of electricity prepaid meter cards are recognised at the point of sale.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on the number of refuse containers on each property, regardless of whether or not all containers are emptied during the month.

Service charges from sewerage and sanitation are based on the number of sewerage connections on each developed property using the tariffs approved from Council and are levied monthly.

Interest and rentals are recognised on a time proportion basis.

Dividends are recognised on the date that the Municipality becomes entitled to receive the dividend.

**RUSTENBURG LOCAL MUNICIPALITY
ACCOUNTING POLICIES TO THE CONSOLIDATED ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2008 (continued)**

12.1 Revenue from Exchange Transactions (continued)

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant gazetted tariff. This includes the issuing of licences and permits.

Income for agency services is recognised on a monthly basis once the income collected on behalf of agents has been quantified. The income recognised is in terms of the agency agreement.

Finance income from the sale of housing by way of instalment sales agreements or finance leases is recognised on a time proportion basis.

Revenue from the sale of goods is recognised when the risk is passed to the consumer.

Revenue from public contributions is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment is brought into use. Where public contributions have been received but the municipality has not met the condition, a liability is recognised.

12.2 Revenue from non-exchange transactions

Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportion basis.

Fines constitute both spot fines and summonses. Revenue from spot fines and summonses is recognised when payment is received, together with an estimate of spot fines and summonses that will be received based on past experience of amounts collected.

Donations are recognised on a cash receipt basis or where the donation is in the form of property, plant and equipment, when such items of property, plant and equipment are brought into use.

Contributed property, plant and equipment are recognised when such items of property, plant and equipment are brought into use.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

13. CONDITIONAL GRANTS AND RECEIPTS

Revenue received from conditional grants, donations and funding are recognised as revenue to the extent that the Municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. To the extent that the criteria, conditions or obligations have not been met, a liability is recognised.

**RUSTENBURG LOCAL MUNICIPALITY
ACCOUNTING POLICIES TO THE CONSOLIDATED ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2008 (continued)**

14. PROVISIONS

Provisions are recognised when the Municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at reporting sheet date and adjusted to reflect the current best estimate. Non-current provisions are discounted to the present value using a discount rate based on the average cost of borrowing to the Municipality.

15. CASH AND CASH EQUIVALENTS

Cash includes cash on hand and cash with banks. Cash equivalents are short-term highly liquid investments that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks and investments in financial instruments, net of bank overdrafts.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdrafts are expensed as incurred.

16. UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

17. IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

18. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

19. FOREIGN CURRENCIES

Transactions in foreign currencies are initially recorded at the prevailing exchange rate on the dates of the transactions. Monetary assets and liabilities denominated in such foreign currencies are retranslated at the rates prevailing at the reporting date. Exchange differences are included in the Statement of Financial Performance.

20. LEASES

The Municipality as Lessee

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality. Property, plant and equipment subject to finance lease agreements are capitalised at their cash cost equivalent and the corresponding liabilities are raised. The cost of the item of property, plant and equipment is depreciated at appropriate rates on the straight-line basis over its estimated useful life. Lease payments are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred.

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease rentals are expensed as they become due.

The Municipality as Lessor

Amounts due from lessees under finance leases or instalment sale agreements are recorded as receivables at the amount of the Municipality's net investment in the leases. Finance lease or instalment sale income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Municipality's net investment outstanding in respect of the leases or instalment sale agreements.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

21. RETIREMENT BENEFITS

The municipality provides retirement benefits for its employees and councillors. The contributions to fund obligations for the payment of retirement benefits are charged against revenue in the year they become payable.

22. BORROWING COSTS

Borrowing costs are recognised as an expense in the Statement of Financial Performance.

The Municipality has taken advantage of the transitional provisions set out in GAMAP 17. The Municipality is in the process of itemizing all infrastructure and community assets and will recalculate accumulated depreciation once this exercise has been completed. At present depreciation on these assets is calculated on an averaging basis whereby an average useful life has been estimated for each category of infrastructure and community assets, using global historical costs recorded in the accounting records. Furthermore, the municipality has not assessed whether items of property, plant and equipment are impaired. It is expected that an assessment of impairments will be done before 30 June 2010.

Valuations on land and buildings are performed every four years. The last valuation came into effect on 1 October 2003 and will be effective until 30 June 2009, when the new Property Rates Act will be implemented together with a new valuation roll. Interim valuations are processed on a quarterly basis to take into account changes in individual property values due to alterations and subdivisions. A general rate of 4.10 cent (2007: 4.31 cent) in the rand on land value only is applied to property valuations to determine assessment rates. Rebates of between 20% and 40% is given to pensioners depending on their gross monthly income.

The municipality has complied with all the conditions set by the transferring organ of State or the conditions set by the other institutions who made allocations to the municipality. The unspent portion of conditional allocations are disclosed as unspent conditional grants on the face value of the Statement of Financial Position of the municipality.

R35,8 million destined for the municipality in terms of the Division of Revenue Act were stopped during 2007 due to significant under expenditure on the Municipal Infrastructure Grant. Refer to Government Notice No. 29755 dated 29 March 2007

19.1 Equitable Share

In terms of the Constitution, this grant is used to subsidize the provision of basic services to indigent community members. All registered indigents receive a monthly subsidy of R347 (2007: R333) if the household income is below R940 per month. If household income is more than R940 but less than R1880 per month, only 50% of the subsidy is allocated to the indigent household.
